<b>Education</b>	MA (Cambridge) – Economics & Law
	Post-Graduate Diploma in Computer Science (Cambridge)
	LL.M – Specialising in computer security & privacy legislation
	Barrister (Middle Temple) - 1979 – Specialising in Development Land Tax
<b>Relevant Experience</b>	
VP – NCNB (Now BoA)	Traded Bankers Acceptances and Factoring
Associate Director – Swiss Bank International	Treasurer & Swap Trader
AGM – Financial Engineering – State Bank of Victoria	Managed a team of traders, accountants and tax experts
AGM – Capital Markets - Commonwealth Bank of Australia	Advised on long-term tax effective structures
Director – Financial Risk Management – Ernst & Young	Financial Subject Matter Expert for the design of the inter-regional electricity market for the National Electricity Market
	Reviewed risk management policies for a number of retailers and then was seconded to design the risk management system for one using Value at Risk
	Was involved in the design of the Western Australia electricity capacity market.
Director – Exigency Management	Submitted a bid on behalf of the Smorgon Group to purchase Muja Power Station in WA. This required understanding of WA demand and generation capabilities, and detailed accounting forecasts for a Special Purpose Vehicle
	Analysed Transformer Usage and standards for the Federal Government. This required collating meter data at half hour granularity at the TNI level plus private HV connections rather than using averages in a non-linear environment.
Director of Analytics – BidEnergy Limited	Designed the data structures for the bill management system and online trading system
	Developed program for validating bills for unmetered sites in Queensland based on latitude (times of dawn and dusk) and impact of solar on network charges. Designed AI program for capturing the relevant information off the bills.
	Developed the program for active hedging of uncertain loads
Director – Exigency Management	Part of a syndicate which entered a bid for Optima Technologies (in Liquidation). Now assisting the company cheated through the Optima business bidding process.
